DRY NATURAL SWEETENERS

HONEY	Honi-Bake® DRY HONEY POWDER	The original dry honey product. Convenient, delicious and economical, Honi-Bake can be used in breads, cookies, cakes, snack foods, health foods and wherever the natural flavor of honey is desired.
	Sweet 'N' Neat® 2000 DRY HONEY POWDER	Contains 70% honey solids on a dry basis, providing maximum honey flavor in virtually any application: baked goods, cereals, batter/breaders mixes, meat products, compound coatings and all types of dry mix systems.
	Sweet 'N' Neat® 50 SPRAY-DRIED HONEY POWDER	Free-flowing powdered honey produced by spray-drying liquid honey with maltodextrin. Contains 45% honey solids on a dry basis.
MOLASSES	Sweet 'N' Neat® 4000 DRY MOLASSES POWDER	Contains 75% molasses solids on a dry basis, providing maximum flavor and colour impact. Used in a variety of breads, cookies, muffins, gingerbread and other mixes.
	Sweet 'N' Neat® 65 SPRAY-DRIED MOLASSES POWDER	Free-flowing, tan-colored molasses powder produced by spray-drying liquid molasses with maltodextrin. Contains 65% molasses solids on a dry basis.
NUT & SNACK COATINGS	Sweet 'N' Neat® Oil Roast Honey COATING BLENDS	Convenient pre-blend of honey, sugar and salt for coating oil roasted nuts, shelled sunflower seeds, etc. Produces rich, golden brown products that are deliciously sweet and salty, with a touch of honey flavor. Widely used with Sweet 'N' Neat Tack Blend.
OTHER	Sweet 'N' Neat® TACK BLENDS	Dry blends of maltodextrin and lactose that are produced by a patented process and function as the adhesive and browning agent in dry roasted or oil roasted nuts.
	Flaked Products	All of the honey and molasses sweeteners can be produced in flake form with a typical granulation of 70% on #20 mesh USBS sieve. These products provide a crunchy texture in fat-based systems, and are used in specialty food products where the absence of anti-caking agents is desired.
	Custom-Blended Products	If you have a unique product or manufacturing situation, tell us what you need. Our R&D staff will be glad to help develop a product precisely to your specifications.

FOOD SHOULD TASTE GOOD

MLG FOOD INGREDIENTS was formed in 1979 to provide sales representation to the North American Food Processing Industries. We currently have a 22,000 square foot plant and warehouse in Mississauga, Ontario which processes liquid sweeteners of various types.

Our professional sales organization of 12 is experienced in marketing specialty ingredients to the Bread/Roll/Cake, Biscuit & Cracker, Snack Food, Food Processing, Pharmaceutical and Cosmetic industries.

There is warehousing available in Vancouver, and additional sites in Montreal and South East USA are being considered.

We have been successful in introducing several new ingredients, in particular, to the Baking and Snack Food areas.

Our company is an active member of the following Trade Associations:

- Canadian Institute of Food Science and Technology
- American Society of Baking
- Institute of Food Technology

Our company has always been very active in promoting new and exotic specialty food ingredients to the food processing companies in North America.

At this facility, the following items are processed and distributed:

Molasses, Malt Extract Caramel Color, Invert Sugar, High Fructose Corn Syrup, Glucose, Golden Corn Syrup, Agave Syrup, Dried Molasses, Dried Honey & other Dried Sweeteners, Malt Powder, Maltodextrins, Fructose, Dextrose, Natural Colors, Cocoa Powder, Cocoa Butter, Defatted Cocoa Powder, Banana & other Fruit Purees, Organic & Non-GMO Ingredients, Release Lubricants, Food Colors, Guar Gum, and Invertase.

BRC approval was achieved in November 2010 enabling **MLG FOOD INGREDIENTS** to increase its marketing strength and presence within the North American and export markets.
